NWSA Honored at Alumni Reunion

Four NWSA alumni were honored as Top Aggies at the annual alumni reunion this summer.

Those named as Top Aggies were:
Leonard Hapka '43, Argyle, MN;
Clayton M. Isaacson '38, Fargo, ND;
Charles R. Samuelson '43, Thief River Falls, MN; and
John R. Thompson '38, Hilo, Hawaii.

These four join an elite group of other alumni honored as Top Aggies. Since the school’s first class graduated there have been 5,433 NWSA graduates and 600 who completed teacher training for a total of 6,033. Of these less than one percent, 48 have been named Top Aggies.

Leonard Hapka
Leonard grew up in the Argyle area and attended Argyle High School as a freshman. His junior and senior years were completed at the Northwest School of Agriculture.

Leonard and his wife, Marie, ran a farming operation in the Argyle area most of their adult lives. In addition, they raised five children. Their children have gifted them with nine wonderful grandchildren and there are more on the way.

Community activities are an important part of Leonard’s life, and awards have been abundantly bestowed upon him. He has also held board positions with several agricultural associations and cooperatives.

Leonard has now retired. As he reflects on the Northwest School, he fondly remembers the atmosphere, the fellowship, as well as the friendliness of the students and faculty.

John Thompson
Born in Beltrami, MN, John moved with his family to Ottertail County where he attended elementary school. At 13, he assumed responsibility for operating the family farm. Three years later his brother returned home, and John enrolled at the NWSA in 1935.

While holding down several jobs -- milking the dairy herd, unloading coal cars and shoveling snow -- he still participated in football, speech, crop judging, choir and drama.

During summers he worked at the Experiment Station. It was that work and his association with Mr. Dunham that convinced him to become an agronomist. He is superintendent of the Hawaii Agricultural Experiment Station and research agronomist.

Clayton Isaacson
General Clayton “Ike” Isaacson is a Mahnomen, MN native who has made his mark in the history of the United States through his heroic contributions as a member of the Air Force. His feats are included in the exhibit of the Fighter Ace Hall of Fame in Mesa, AZ. He qualified for this honor by being one of the country’s top pilots in a career that spanned more than a quarter of a century. He retired from the Air Force in 1970 after logging about 1200 hours of combat flying.

Ike attended the NWSA for four years graduating in 1939. He indicated when he came he was very discouraged and indifferent student from a small Minnesota town, but while in attendance he developed a lifetime interest in agriculture. In 1944, he married Nona Aamo and they raised five children.

Charles Samuelson
Charles grew up in Crookston. His doctoral thesis “Biology of Sunflower Midge in the Red River Valley” remains the authority on this subject.

His 40-year teaching career ended at Northland Community College in Thief River Falls when he retired in 1992. He and his wife Ildefaba have three children and four grandchildren.

During his illustrious career, Charles participated in a multitude of organizations and community-activities. He also organized Class of ’43 reunion’s and served as chairman of the White House Restoration.

Charles’ father, Richard, attended NWSA in 1912-14 and all his brothers and several uncles did, also.
Larson's Notes

It is apparent that increased external financial and volunteer support will also be critical to our achieving the enrollment and other defined benchmarks as well as the programs at the Northwest Experiment Station.

As in the past, the University of Minnesota, Crookston Campus will be looking to its alumni, faculty and staff and its many friends to help accomplish its goals during the next five years. It is important to solidify that the UMC Campus will continue to be a major teaching, research and service force throughout the region and the state.

I am pleased to report the June NWCS Reunion went well. Attendance was excellent—close to our record high of 325. Unfortunately, we had to close the Top Aggie Banquet due to space limitations to several alumni who hadn't preregistered. My apology to them. Thanks to Walter and Charlene Stromstad, Marge Hanson and Elmore Berg for introducing the Top Aggies.

Special thanks to Bill Moser '56 and Ken Schuster '61 for agreeing to serve another term on the Alumni Board.

Table 1, Enrollment and Scholarship Projections, illustrates the needed dollars for scholarships if we are to attract and retain the students necessary to meet the mandated student enrollment numbers.

New Phone System
At UMC

Have you tried to call UMC lately? When you do you'll find that UMC has switched to Direct Inward Dial. Now you can call any faculty or staff member directly without going through the switchboard.

If you have general questions or if you need information but don't know who to call, you may still call UMC's old number (281-281-8435) and the switchboard operator will help you.

If the person you are trying to reach does not answer, you may leave a message on "Voice Mail." Our faculty and staff will respond to your message as soon as they can.

To reach the alumni office staff, call:

- Allan Larson, director of external relations, 281-8436
- Barbara Weiler, Aggie editor, 281-8435
- Ardis Thompson, support staff, 281-8437
- Kathy Braukmann, support staff, 281-8439

THE AGGIE
Volume 13, Number 1 - Fall 1993

The Aggie is a publication of the Northwest School of Agriculture Alumni Association, published by the University of Minnesota, Crookston (UMC) External Relations Office.

Barbara Weiler, editor, 281-8435; Allan Larson, director of external relations, 281-8436; Ardis Thompson, support staff, 281-8437; Kathy Braukmann, support staff, 281-8439. Typesetting and Design by Patti Tiedemann, UMC Printing. Photos by Media Resources and External Relations.

Send address changes and Information for the newsletter to: The AGGIE, White House Alumni Center, University of Minnesota, Crookston, MN 56720-5001. Telephone: 281-281-8437.

The University of Minnesota is an equal opportunity educator and employer.
Chancellor's Comments

Donald Sargeant

Congratulations to 1993 Top Aggies Leonard Hapka, Clayton Isaacson, Charles Samuelson, John Thompson and thanks to the class leaders for helping with the NWSA reunion this summer. It was great to see the large attendance and enthusiasm.

This has been the most exciting beginning of an academic year in my 24 years here at UMC! Nearly all students are enrolled in an information management systems course learning to use their "personal" laptop computer. This new tool is drastically changing not only what we teach, but how we teach. Students are helping one another and working on projects together, so active learning has been a reality here.

Enrollment has increased from last fall. The number of full-time students is up about 10% to over 800. The total headcount enrollment will be over 1,400 students. Included in this enrollment are 148 third and fourth year (or junior and senior students) and 103 postsecondary options (or high school students) and about 300 students who are jointly enrolled at UMC and at the Northwest Technical College in East Grand Forks. These numbers provide an indication of the diversity of enrollment in terms of different educational objectives for students at UMC.

Also, the interest in agencies providing grants to UMC is significant. UMC recently received a $200,000 Ford Foundation grant to use telecommunications in work force advancement; $200,000 for the Red River Trade Corridor, and we have another $200,000 grant with the Minnesota Trade Partnership Act in process. These are just examples and not an all-inclusive listing of the grant funding during the past six months.

November 4 has been set for dedication of the new Agricultural Operations Management complex on the north side of the campus. This facility includes ag technology classrooms and laboratories with telecommunications capability, offices for animal science and Minnesota Extension Service faculty and staff, a large arena for campus use, an equine center and meat animal center. So, if you are in the area do plan on attending the open house and demonstrations that will be part of the dedication.

We appreciate your continuing support and when in the area, do stop by and take a tour of the campus.

--Donald Sargeant

From President Proulx

Paul Proulx

Again our summer reunion was an overwhelming success with compatible weather contributing to a pleasant day. Attendance was over 300.

I am sorry we could not accommodate all who wanted to attend the evening banquet. To alleviate this problem next year, please pre-register when you receive the reunion announcement in the mail.

The good news is since inception of baccalaureate degree programs this fall, we have a good number of two-year program graduates returning for third and fourth years. This is great news. Your contributions to endowments and scholarships made this possible for many of these students.

--Paul Proulx

Congratulations 1993 Top Aggies
Leonard Hapka
Clayton Isaacson
Charles Samuelson
John Thompson

Marge Hanson, '43 of Thief River Falls, was recognized for her work in coordinating the needlepoint chairs for the White House Alumni Center restoration project. Pictured with Marge is her husband Sy and, in the back, Allan Larson, NWSA Alumni Reunion coordinator. Thanks Marge for your creative help.
Benchmarks Established for UMC

The University of Minnesota Board of Regents established "Benchmarks" for the Crookston campus. Additional benchmarks may be added to this list in the future.

Enrollment and Retention
1. FYE enrollment increased by approximately 7% each year to 1,165 TYE by FY97.
2. Headcount enrollment increased by approximately 3% each year to attain 1,533 by TY97.
3. Approximately 400 new high school admits and 100 transfer students enrolled annually by FY97.
4. Student retention rates of 60% freshmen to sophomore, 50% to junior, and 40% to senior status respectively by FY97.
5. 90% of graduates seeking employment are employed in career-related fields within one year of graduation.

Quality Programs and Services
7. Academic program improvement audit committees established by fall 1993 to review programs and courses on a three-year cycle.
8. Learner outcomes established for all courses and programs by fall 1994 and multiple measurements implemented by fall 1995.
9. Structured field experiences/internships required in all programs and completed by students by their senior year by FY97.

Collaborative Partnerships
10. UMC cooperative AAS programs with technical colleges expanded to serve more than 500 technical college students annually by FY97.
11. Cooperative agreements established to receive/deliver a total of 50 courses annually within the University, Bemidji State University, Moorhead State University, the University of North Dakota, North Dakota State University, and Concordia by FY97.

Collaborative Partnerships (continued)
12. Six joint faculty appointments created between UMC and the colleges within the University and neighboring institutions by FY97.
13. Bemidji State University, Moorhead State University, and the University of Minnesota, Twin Cities will offer extended programs on the UMC campus by FY97.
15. Ten articulation program agreements established with technical and community colleges to insure appropriate transfer of student credits into UMC programs by FY97.

Incorporation of Technology
16. All faculty and students have computers, e-mail, and voice mail by FY97.
17. Computer technology incorporated in all courses and documented in the college bulletin and course syllabi.
18. Shared data bases, technology and expertise with 10 employers as an integral part of the career programs.

Financial Accountability
19. Cost per FYE decreases by 16% from FY92 ($8,348) to FY97 ($6,969).
20. Tuition income from additional students reaches approximately $775,000 by FY97 and is used to support the additional needs for faculty, staff, supplies, equipment, technology, and telecommunication.
21. Applied research funding which enhances rural economic viability increases over $1,000,000 annually by FY97.

Gene Dufault '63 from Gentilly, Larry Venem '63 and Darlene Harder from Wenatchee, Washington, and Darroll Novacek '63 from Angus toured the new Agricultural Operations Management Center. The new complex will be named and dedicated on November 4.

Paul Specht '53 from Mahnomen, Shirley Jensrud Johnsen '52 from White Bear Lake and John Gregoire '53 from Altdena, California, sit out the dance and look at their class yearbooks.
Enrollment Up At UMC

Early registration statistics indicate that full-time enrollment at the University of Minnesota, Crookston (UMC) is up about 10 percent over fall quarter last year.

Baccalaureate degrees are offered for the first time in the history of the Crookston campus, providing career-oriented education, primarily in technical disciplines. Well over 100 students are enrolled in third year classes, with a good number enrolled in fourth year classes.

High school students enrolled under the Post Secondary Enrollment Act taking classes at UMC and high school students enrolled in college classes taught at Central High School number over 100.

"This is one of the most exciting fall quarters I have experienced," said Jack Bywater, director of admissions and enrollment management. "As I visit with students, there seems to be more of an aura of excitement on campus than I have experienced in other years."

All full-time students at the University of Minnesota, Crookston (UMC) were issued notebook computers during fall quarter classes. Over 700 notebook computers were signed out to students this week. Computers for part-time students will be signed out for individual classes.

"UMC is one of the first institutions in the country to issue all students a notebook computer," said Donald Sargeant, chancellor. "Every class offered at UMC will have some computer component application."

Computer use will vary from class to class. In some classes computers will be an integral part of the everyday classroom instruction in the course; others will require students to complete assigned assignments using specific software on a periodic basis, and others may require written assignments by using a word processing program.

The addition of notebook computers to UMC's curriculum was a long thought-out process -- a decision reached after input from employers. Businesses indicate that computer skills are increasingly important for employment.

"UMC students will graduate with advanced computing skills as a result of extensive required use of the computer, giving them a "leg-up" on their competition when applying for jobs," said Robert Nelson, UMC vice chancellor for student affairs.

Several classrooms are installed with a custom designed docking station so that all students can access the campus local area network and printing facilities. A residence hall, the library and a computer study center are also equipped with the custom designed docking station at designated areas.

Over 700 UMC students were issued notebook computers during the first week of classes.

Helmer '31 and Karine Opdahl '34 Nornes were recognized for being married to the same alum the longest time -- 55 years. Allan Larson, in back, congratulates them.

Class of '58 buddies: Keith Miller from Los Angeles, Ray Anderson from East Grand Forks and Les Nielsen from Plymouth chat. Keith came back to see all the special people. He was here for his 25th reunion ten years ago.
"I hope my lifelong work in agriculture endeavors have in some small way helped to repay for the education and training I received at the NWSA."

— John Thompson — Top Aggie

1993 Reunion Memories

"I believe the NWSA was a perfect environment for the rural students."

- Leonard Hapka - Top Aggie

Sam Bigger Memorial Fund

Northwest Minnesota and the University of Minnesota, Crookston (UMC) lost a colleague and good friend with the death of Samuel (Sam) Bigger. Sam died Thursday, August 26, 1993, from injuries received in a farm accident at his rural residence.

To honor Sam's memory, The UMC Campus is establishing the Sam Bigger Memorial Fund. The use of the fund will be determined in consultation with the Bigger family.

Norma Bigger, Sam's wife, passed away on September 10, 1993, following a lengthy illness.

Harl Gamber Memorial Fund

On May 4, 1993, Harl Gamber passed away after a courageous fight against cancer. Harl graduated from UMC in 1973 and in 1981 he returned to the campus as director of the Retired Senior Volunteer Program.

Harl's influence as RSVP director had a significant impact on thousands of friends and others associated with UMC, RSVP and community programs.

Harl was also a member of the UMC Alumni Association.

Sandy Smith Fund Established

The Sandy Smith Northwest Experiment Station (NWES) Employee Dependent Scholarship was recently established.

The scholarship fund is named for Sandy Smith, wife of the NWES superintendent, Dr. Larry Smith.

The scholarship is available to all NWES employee dependents and may be used at any institution that the recipient chooses to attend.

If you wish to make a gift to any of these scholarship funds, please designate which fund and send it to The Development Office, White House Alumni Center, University of Minnesota, Crookston, MN 56716.
UMC/NWSA Golf Classic Nets $3,000

More than 90 golfers participated in the third annual UMC/NWSA Golf Classic at Minakwa Golf Club this summer.

Twenty local business firms sponsored the golf teams and 15 firms made contributions as hole sponsors.

Approximately $3,000 in net income from the tournament and contributions from the hole sponsors and team sponsors will be used for scholarships at UMC.

Unfortunately, no one won a new vehicle in the Hole in One Contest sponsored by the local car dealers, Brost Chevrolet, Nelson Motors and Salem Motors. If a golfer had been fortunate enough to hit a hole in one on hole #6, he or she would have won one of two cars or a pickup.

Rooter's/Coast to Coast won first place honors with -11. Team members were Don Forney, Wayne Melby, Mark Lyczewski, Al Solheim and Bruce Hanson.

Closest to the hole on #4 was won by Ralph Pester. Closest to the line was won by Mark Lyczewski. Closest to the pin in two shots was won by Dave Colborn. The "room for improvement" award went to the women's team sponsored by American Crystal.

Hole sponsors ($100 donation or more) were The Medicine Shoppe; KROX Radio; Otter Tail Power; Crookston Times; New Tech Computers; Phoenix Industries; Villa St. Vincent; Northland Inn; First American National Bank; Odland, Fitzgerald and Reynolds; Widseth, Smith, Nolting and Associates Inc; Happy Joe's/Shop; Crookston Festival Committee; RP Farms Inc./Dragsets Farm Inc; LDDS/Dial Net and Midwest Coca-Cola.

Team sponsors ($50 donation or more) were Northland Inn; Crookston Implement; American Crystal; Northern Paving; McKinnon Company; Villa St. Vincent; Gasper Flying Service; Northern Lumber; Edward D. Jones; D & B Furnishings; Dahlgren & Company; Happy Joe's/Sub Shop; Rooter's/Coast to Coast; Farmers Union Oil Company; First American National Bank; Stenshoel-Houske Funeral Home; Dickel, Johanson, Taylor, Rust & Tye; Riverview Health Care Center; Crookston National Bank; Ye Ole Print Shoppe; and Crookston Festival Committee.

Members of the Golf Committee were John Peters, Jerry Hasbrouck, Kyle Pearson, Dave Bang, Rob Jacobson, Ralph Pester, Mike Siakas, Jackie Holten, John Carlson, Marv Bachmeier, Harold Opgrand, and Allan Larson.

The first women's golf team entered the tournament. From left: Nancy Demmers Nelson, Kathleen McCann, Tina Vonesch, Janna Hjelseth and Ronnie Ryan. Next year...how about a few more women's teams?

Joyce Eftefield Sather '51 from Oslo and Marlys Eftefield Kelley '53 from Royalton, Massachusetts, checked in at the registration desk.

Robert Viejto '53 of Bemidji and Everett Anderson '53 of Crookston, remember the good old days - 40 years ago.

Eleanor Weber Swift (center) '38 from Crookston greets classmate Lucille Wollin Larson (right) '38 from Lakota, North Dakota.
Academic Excellence Scholarship Fund

You can show your school pride and at the same time help one of Minnesota’s most promising high school students attend the University of Minnesota, Crookston.

When you buy a set of license plates sporting the University of Minnesota, Crookston (UMC) Trojan, you support the Academic Excellence Scholarship program on the Crookston campus. The program awards full tuition and fees for four years to Minnesota high school graduates who show high achievement and potential. The Minnesota Legislature created this statewide program.

To own a set of UMC license plates, you pay a one-time charge of $9.75 to cover the cost of the plates, plus an annual contribution of $25 (for as long as you choose to own the plates), which goes to the Academic Excellence Scholarship fund on the Crookston campus. Collegiate license plate fees are in addition to your regular license fees.

To order a set of UMC plates, contact your local Driver and Vehicle Services office.

For more information on University of Minnesota license plates of the Academic Excellence Scholarship program, contact UMC External Relations at 218-281-8436.

The bus tours to the new Agricultural Operations Management Center and other campus highlights were a huge success. An extra run was used to accommodate all the alumni waiting for the tour.
